PROFESSIONAL PROFILE

IT SUPPORT · COMPUTER
ENGINEERING

Responsible and systematic IT professional with hands-on experience in technical support, web development, server management, and business systems. Focused on solving problems efficiently and creating practical value for the organization.

PROFESSIONAL EXPERIENCE

IT Support

2025 – Present

Keera Hospitality Co., Ltd.

- Manage CM Manager, PMS, BE, Aiosell, Exely, and eZee systems, including integrations with properties under the company’s care.
- Support Odoo, Zoho, PMSuite, and internal business systems while contributing to product planning with management.
- Maintain more than 20 WordPress websites and Hostinger servers, and develop full-stack web solutions using Next.js, Node.js, PHP, MySQL, React, and Tailwind CSS.
- Provide troubleshooting and technical support for computers, equipment, and IT systems across the organization.

Energy Academic Officer

2025

Uttaradit Rajabhat University

- Collected, prepared, and submitted university energy consumption reports according to Ministry of Energy requirements, covering electricity, fuel, and energy costs within the required reporting periods.
- Developed an energy dashboard for the university bus charging station using Digital Meter INT1422, RS485, USR-IOT, Node-RED, MariaDB, phpMyAdmin, Raspberry Pi CM4, and PHP. The system reports daily energy usage, Telegram alerts, and charging station costs.
- Developed a real-time dashboard for a 500 kW rooftop solar power system using Digital Meter INT-1422, RS485, USR-IOT, Node-RED, MariaDB, phpMyAdmin, Raspberry Pi CM4, and Node.js. The system displays line charts and daily generation reports.

Information Technology Assistant

2024 – 2025

Saksiam Leasing Public Company Limited · Head Office

- Repair, maintain, and inspect electronic equipment to keep it operational, including printers, UPS units, laptops, smartphones, and desktop PCs.
- Provide remote troubleshooting support for branches and departments to keep operations running smoothly, including computer software, printer sharing, and driver installation.
- Manage non-working electronic equipment by sorting and storing usable parts for appropriate future repairs.

Personnel Administration Clerk

2019 – 2021

2nd Cavalry Battalion · Military service

- Prepared official documents and carried out routine administrative procedures.

SELECTED PROJECTS & CAPABILITIES

keera.co.th

Full-stack website development with Next.js, Node.js, PHP, MySQL, and GitHub.

relaxsha.com

Frontend development with React, CSS, and Tailwind CSS, supported by Node.js and MySQL.

Air Conditioning

Installation, service, refrigeration system knowledge, and system vacuuming.
